**Subject:** 5/24 EPA Visit & Discussion

Hi Jason,

I've confirmed my travel to Idaho for next week. I'll be in Preston, ID at 9am and hope to be in Soda Springs, ID around 1pm.

I have not heard back from IDEQ if their engineer(s) would like to attend the visit as well. I've reached out to Lynn Van Every in the Pocatello office and will let you know if I hear back.

On the phone we discussed that P4 Monsanto would be able to provide most necessary PPE. Let me know if I interpreted this correctly or if there is anything else I should know prior to my visit.

During the visit I hope to accomplish the following goals:

- Familiarize myself with the processes at P4 Monsanto
- Confirm the location and nature of the effluent
- Observe the point of discharge in the receiving water
- Discuss the June meeting
- Broadly review the permit drafting process and make myself available to any questions you may have

Thank you and I look forward to meeting you.

David Brick
